

## Language Arts 6 - End of the Year Project

Due by June 8th

For our final project, students will have the opportunity to choose a topic based on their interests and academic strengths. This project should contain written and visual aspects. The visual portion of the project can be completed on the computer (Powerpoint, Google Slides, etc.), or it can be done by hand. The written portion of the project can be composed as an essay, or it can be interwoven with the visuals.

For this project, choose one of the writing types that we engaged in this year that you would like to explore further.

Suggestions:

- Research project - research a topic (literary, argumentative, or informative) and report your findings
- In-depth analysis of a textbook short story
- Illustrated personal narrative
- Illustrated creative writing piece / expanded Quickwrite
- Song or poem analysis
- Create your own project - Just run it by me first to make sure that it will work for this assignment.
